

At the Informatics and Electronics department (ETRO) of the VUB, we are looking for a motivated future colleague to join our team.

If you have a strong interest in Data Processing with Matlab and are looking for a new professional challenge, this is the opportunity for you.

QUALIFICATIONS:

- The candidate has a master in engineering with a strong focus on programming and algorithm implementation in the Matlab domain.*
- Familiar with Matlab: writing functions and using suitable commands.*
- Familiarity with signal processing; good understanding of FFT and IFFT and their implementation. Experience with Data Processing in Matlab is a strong plus.*
- Eager to learn, motivated and a team player.*
- Experience in Matlab is a strong plus; other programming languages are also appreciated as long as their application is Data Processing.*

START DATE: 1/11/2022

Full-time job

WHAT'S IN IT FOR YOU:

- Work in an exciting environment together with PhD students, postdocs and research scientists.*
- Attractive salary package and benefits, flexible working hours both in campus and from home.*

If you are interested or you know anyone who might be, please reach out to me or Johan Stiens (jstiens@etrovub.be) and Ali Pourkazemi (apourkaz@etrovub.be) for further details.
